

PRESS RELEASE

New Onboard Express Integration brings Simplicity to Recruitment and Employee Onboarding

Melbourne, Australia, 10 October 2016: Leading Australian employee onboarding platform, Onboard Express has integrated with JobAdder to provide recruiters with a seamless recruitment experience.

Onboard Express is a leading Australian web based solution for employee onboarding services, created by Affirm Software. Onboard Express is a choice solution for organisations of all sizes and industries, providing tailored solutions to meet the business need. Onboard Express has experienced rapid Australian growth in the recent months.

Onboard Express creates customised online portals for new hires, through which onboarding documentation is transmitted from recruiter or employer to candidate. Examples of documentation include employment contracts or letters, employment forms including Tax File Number Declaration and company policy documents.

JobAdder is the latest recruitment product to be integrated with Onboard Express, as announced last week.

JobAdder's cloud-based (SaaS) recruitment software is used by over 1,800 companies every day to streamline the recruitment process. Used by staffing agencies and in-house recruiters in over 45 countries around the world, JobAdder has also experienced [rapid international growth](#) in recent months.

The integration with JobAdder provides a smooth transition of data to Onboard Express to quickly generate and issue candidate onboarding packs, improving the ability of an organisation to secure their first choice candidate.

Affirm Software CEO, Bryan Ericson said "The integration with JobAdder will provide a seamless experience for recruitment users, significantly reducing the data entry requirements and ensuring JobAdder clients engage their first choice candidates, quickly and securely using Onboard Express. We are very pleased to welcome JobAdder to the Onboard Express family."
